CAREER OBJECTIVE

Results-driven software engineer and research-oriented professional with 4+ years of experience in backend development, scalable web applications, SaaS platforms, and technical project coordination. Skilled in Laravel, Node.js, REST API development, Docker deployment, cloud hosting, and AI-assisted systems. Passionate about teaching, mentoring students, and contributing to research in Software Engineering, Artificial Intelligence, Distributed Systems, and Human-Computer Interaction.

RESEARCH INTERESTS

Artificial Intelligence, Backend Systems, Software Engineering, Distributed Systems, NLP, Human-Computer Interaction, Web Technologies, Machine Learning, Cloud Computing

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript, TypeScript, Python, SQL, C++, Java, Dart, HTML, CSS

Frameworks & Libraries: Laravel, Node.js, React, Flutter, Django, OpenCV, TensorFlow

Databases: MySQL, PostgreSQL, MongoDB, Redis

DevOps & Tools: Docker, Git/GitHub, Linux, Postman, OpenAPI, MATLAB, Google Colab

Cloud/Hosting: DigitalOcean, VPS Deployment, AWS (Basic)

Other Skills: REST APIs, WebSockets, Payment Gateway Integration, System Design, L^AT_EX, Agile/Scrum

PROFESSIONAL EXPERIENCE

Backend Developer & Product Researcher

2025 – Present

Betopia Group

- Developed scalable REST APIs using Laravel and Node.js for SaaS product workflows.
- Integrated Stripe and Authorize.Net payment systems for automated subscription management.
- Implemented Docker-based deployment pipelines on VPS environments.
- Optimized backend performance using Redis caching and database query optimization.
- Collaborated in Agile/Scrum teams through sprint planning, code reviews, and documentation.

Operations Associate

2023 – 2025

EDGE Project — World Bank & Government of Bangladesh Initiative

- Coordinated ICT training operations involving 5,519+ trainees, 230 completed batches, and 119 partner companies.
- Reviewed and contributed to curriculum development with professors for PHP, Laravel, Python, and ASP.NET tracks.
- Participated in internal software development for reporting and workflow management.
- Prepared administrative, financial, and audit-related documentation.
- Collaborated with leading IT companies including BJIT, Brain Station 23, Riseup Labs, and Synesis IT.

Programmer Intern

Jul 2024 – Sep 2024

Business Automation Ltd.

- Worked on production-grade backend modules using PHP and Laravel.

- Contributed to enterprise-level feature implementation and debugging.

Junior Programmer Intern

Urban Hill

2021 – 2022

- Developed a full-stack e-commerce web application including recommendation systems and admin features.
- Technologies used: PHP, MySQL, HTML, CSS, Bootstrap, Apache.

SELECTED PROJECTS

Pokemon Trading Card Platform

Node.js, Python, React, MongoDB, Shopify

Developed software enabling direct Pokemon card trading integrated with Shopify.

LCE Backend System

Laravel, React, MySQL

Designed modular Laravel REST APIs supporting scalable backend architecture.

IntelliDemo AI

Node.js, React

AI-powered demo platform with modular backend services and dynamic content generation.

Real-Time Chat Application

Node.js, TypeScript, Socket.IO

Built a real-time messaging platform using WebSocket communication.

SAVIOR — Intelligent Security System

Flutter, Firebase, Alan AI

AI-assisted emergency response and personal safety mobile application.

Voice Assistant using Python

Python, TensorFlow

Developed NLP-based voice assistant integrating voice interaction and search capabilities.

EDUCATION

Master of Information Technology (MIT)

2023 – 2025

Institute of Information Technology, University of Dhaka

CGPA: 3.27 / 4.00

Bachelor of Science in Computer Science and Engineering

2018 – 2022

Notre Dame University Bangladesh

CGPA: 3.63 / 4.00

Thesis: SAVIOR — An Intelligent Security System

ACHIEVEMENTS & AWARDS

- Finalist — Blockchain Olympiad Bangladesh (Professional Category), 2022
- Second Runner-Up — NDUB CSE FEST Programming Contest, 2021
- Merit-Based Scholarship — Notre Dame University Bangladesh, 2020–2021
- Outstanding Performance Award — Traffic Control Volunteer Service, 2018

LEADERSHIP & VOLUNTEERING

- **Class Representative (CR), CSE-7 — NDUB (2018–2021):** Coordinated communication between faculty and students.
- **Computer Club, NDUB:** Supported media editing and publication activities.
- **Event Organizer — Sant Christina Youth Association:** Organized seminars with 1000+ attendees.

PUBLICATIONS & RESEARCH WORK

- SAVIOR — Intelligent Security System (Undergraduate Thesis Project)
- Research-oriented Voice Assistant using Python and NLP technologies.

ADDITIONAL INFORMATION

Soft Skills: Leadership, Communication, Technical Documentation, Team Collaboration, Public Speaking

Creative Tools: Adobe Premiere Pro, Adobe After Effects, Adobe Photoshop, Blender

Languages: English, Bangla

ACKNOWLEDGEMENT

I am committed to contributing to academic excellence through teaching, research, and continuous learning. With a strong foundation in software engineering and practical industry experience, I aspire to inspire students and contribute positively to modern computer science education.

I sincerely thank you for considering my application.

Sincerely,

Cenedy Udoy Palma
