

Cenedy Uday Palma

Backend Developer — Software Engineer — R and D — Technical Project Coordinator

cededypalma@gmail.com — +8801746520223 — github.com/cededypalma — linkedin.com/in/CenedyPalma — Portfolio

PROFESSIONAL SUMMARY

Results-driven Backend Developer with 5+ years of experience building scalable web applications, SaaS platforms, and backend systems using Laravel, Node.js, PHP, and TypeScript. Experienced in REST API development, payment gateway integration, Docker deployment, and system architecture. Strong academic background in Computer Science and Information Technology, with additional exposure to AI, automation, and research-driven software development. Finalist at Blockchain Olympiad Bangladesh 2022.

TECHNICAL SKILLS

Languages: PHP, JavaScript, TypeScript, Python, SQL, C++, Java, Dart, HTML, CSS

Frameworks: Laravel, Node.js, React, Flutter, Django, OpenCV

Databases: MySQL, PostgreSQL, MongoDB, Redis

DevOps & Tools: Docker, Git/GitHub, Linux, Postman, OpenAPI, Google Colab, MATLAB, Anthropic tools, Codex

Cloud/Hosting: DigitalOcean, VPS Deployment, AWS (Basic)

Other: REST APIs, WebSockets, Payment Gateway Integration, System Design, $\text{\LaTeX}$

Currently Learning: Advanced React, ASP.NET

PROFESSIONAL EXPERIENCE

Backend Developer & Product Researcher

2025 – Present

Betopia Group

- Developed and maintained scalable REST APIs using Laravel and Node.js for SaaS product workflows.
- Integrated Stripe and Authorize.Net payment systems for automated SaaS billing and subscription management.
- Implemented Docker-based deployment pipelines on VPS environments, improving deployment reliability.
- Optimized backend performance through Redis caching strategies and systematic database query tuning.
- Collaborated in Agile/Scrum teams, contributing to sprint planning, code reviews, and technical documentation.

Operations Associate

2023 – 2025

EDGE Project — World Bank & Government of Bangladesh Initiative (USD 295M)

- Coordinated ICT training operations across **5,519+ trainees**, **230 completed batches**, **119 partner companies**, and **51 specialized tracks**.
- Reviewed and contributed to course curricula with university professors for PHP, Laravel, Python, and ASP.NET training tracks.
- Participated in developing custom internal software tools to support project operations and reporting.
- Monitored project timelines, budgets, and resource allocations; prepared audit-ready administrative and financial documentation.
- Created and presented materials for executive meetings and stakeholder reviews.

Programmer Intern

Jul – Sep 2024

Business Automation Ltd.

- Worked on production-grade backend modules using PHP and the Laravel framework.

Junior Programmer Intern

2021 – 2022

Urban Hill

- Built a full-stack dynamic e-commerce web application including product listings, customer recommendation logic, and an admin panel for complete inventory management.
- Tech stack: HTML, CSS, Bootstrap 4, PHP, MySQL, Apache.

SELECTED PROJECTS

Pokemon Trading card

Node, Python, React, Mongodb, Shopify

Pokemon Trading card software for directly buying from client to customer via shopify.

LCE Backend System

Laravel, React, MySQL

Designed and implemented a Laravel backend architecture with modular REST APIs to support scalable application services.

IntelliDemo AI

Node.js, React

AI-powered demo platform featuring modular backend services and dynamic content generation capabilities.

Real-Time Chat Application

Node.js, TypeScript, Socket.IO

Real-time messaging platform leveraging WebSockets for low-latency bidirectional communication.

SAVIOR — Intelligent Security System

Flutter, Firebase, Dart, Alan AI

Undergraduate thesis project; an AI-assisted personal safety mobile application using voice commands to trigger emergency calls, zone recognition, and real-time alerts for harassment and crime scenarios.

Blood Donation Web Application

HTML, CSS, PHP, JavaScript, MySQL

Web platform connecting blood donors with recipients, with search, matching, and database-backed donor management.

Voice Assistant using Python

Python, TensorFlow

Research-oriented NLP and multimedia processing assistant featuring search engine integration and voice interaction.

EDUCATION

Master of Information Technology (MIT)

2023 – 2025

Institute of Information Technology, University of Dhaka

CGPA: 3.27 / 4.00

BSc in Computer Science and Engineering

Jan 2018 – Feb 2022

Notre Dame University Bangladesh

CGPA: 3.63 / 4.00

Undergraduate Thesis: SAVIOR — An Intelligent Security System Supervisor: Dr. Shaheena Sultana

ACHIEVEMENTS & AWARDS

- Finalist — Blockchain Olympiad Bangladesh (Professional Category), 2022
- Second Runner-Up — NDUB CSE FEST Programming Contest, 2021
- Merit-Based Scholarship — Notre Dame University Bangladesh, 2020–2021
- Second Runner-Up — Eusclan Science & Technology Club, Science Project Display, 2016
- Outstanding Performance Award — Traffic Control Volunteer Service, 2018

VOLUNTEER & LEADERSHIP

- **Class Representative (CR), CSE-7** — Notre Dame University Bangladesh (2018–2021): Facilitated teacher-student communication, organized class schedules, and ensured compliance with university policies.
- **Computer Club, NDUB** — Provided video and photo editing support for club events and publications (2020).
- **Event Organizer** — Sant Christina Youth Association: Organized seminars for 1000+ attendees and published a yearly magazine (2017–2019).

ADDITIONAL INFORMATION

Soft Skills: Communication, Leadership, Technical Documentation, Team Collaboration, Public Speaking

Creative Tools: Adobe Premiere Pro, Adobe After Effects, Adobe Photoshop, Blender (Basic 3D Modeling)
