Professional Summary

An interdisciplinary and motivated professional with 4+ years of experience spanning software development and clinical nursing. Possesses a unique dual expertise in both technology (Python, AI, Deep Learning) and medicine, with a Master's in Information Technology from the University of Dhaka. Eager to apply this combined skill set to solve complex challenges in applied AI for bioinformatics and healthcare

Professional Experience (4+ Years)

• (World Bank and Government Project) EDGE Project: Hire and Train

Operation Associate

2023 – 2025

◦ Project Overview:

- * A Government of Bangladesh and World Bank-funded initiative valued at **USD 295 million**, aimed at developing skilled IT professionals across the country.
- * The project has successfully trained over **5,519+ trainees** through **230 completed batches**, in collaboration with **119 companies** across **51 specialized training tracks**.

◦ Project Coordination and Reporting:

- * Coordinated and reviewed IT-related course curricula with professors, focusing on content development and hour distribution. (Notable: PHP, Laravel, Python, ASP.NET)
- * Assisted with exam invigilation, grading, and review of exam scripts.
- * Participated in developing custom software tools to support project operations.
- * Monitored project timelines, budgets, and resource allocations to ensure smooth execution.
- * Prepared administrative and financial documentation to support project reporting and audit readiness.
- * Created and presented project materials for executive meetings and stakeholder reviews.
- * Maintained detailed project calendars to track milestones and ensure timely deliverables.

• Business Automation Ltd

Internship Program as Programmer

July – Sept 2024

- **Programming:** Work on various projects using PHP and Laravel Framework.

• Management Trainee

Work on completing assigned task.

2023

• Management Trainee (Part-Time)

Work on making documentation and sort the those data accordingly

2023

• Internship at Urban Hill.

Junior Programmer (Intern) (Full-time)

2021 - 2022

- **Work On:** Made a dynamic web application for an e-commerce client. Where he was able to sell his products, understand what his customer wants and recommend option for customers .An admin panel to control all. Used technology: Front End: HTML, CSS, Bootstrap 4, Back End: PHP, Database: MySQL, Server: Apache

Education

• Notre Dame University Bangladesh

Dhaka, Bangladesh

Department of Computer Science and Engineering (CSE)

January 2018 – February 2022

Undergraduate Thesis: Savior-an Intelligent Security System (SISS) Supervisor: Dr. Shaheena Sultana

CGPA:3.63/4.00

• University of Dhaka

Dhaka, Bangladesh

Master in Information Technology (IIT)

2023- 2025

CGPA :3.27/4.00

Skills Summary

- **Languages:** Python, PHP, C++, JavaScript, SQL, Dart, JAVA, HTML, CSS
- **Frameworks:** Flutter, Laravel, OpenCV, TensorFlow, Keras, NodeJS
- **Tools:** Docker, GIT, MySQL, Google Colab, Matlab
- **Platforms:** Linux, Web, Windows
- **Soft Skills:** Leadership, Time Management, Communication, Event Management, Writing, Public Speaking, Medical
- **Additional Skills:** Writing with Latex(This CV is also written using Latex). Video Editing: Adobe Primmer Pro, Adobe After Effect, Blender. 3D Modeling: Blender(Basic). Photo Editing: Adobe Photoshop. Microsoft Word, PowerPoint, Excel(Basic). LibreOffice(Basic).
- **Currently learning:** React. JS(Basic), ASP.NET(Basic) from free resources online.
- **Medical skill:** Cannula, CPR, Suction, Medication(IV/IM), NG Tube Feeding, Vital Sign Check, Blood Sample Collection, Assist Doctor, File Management.

Key Projects

- **Savior-an Intelligent Security System (SISS) (Making the thesis part of real world):** (Working on to making it more user friendly) Use modern techs like smartphones with the combination of AI to solve problems like harassment, and criminal activity and help helpless people. A software that can be use in multi-platform and robust. Partial Project code: <https://github.com/CenedyPalma/Thesis-project-SAVIOR-v1.2> Tech: Flutter, Firebase, Dart, Alan AI.
- **Voice Assistant using Python.(NLP, Search Engine, Multimedia Processing):** (For AI subject course project.) Research oriented, Open source. Partial project code: https://github.com/CenedyPalma/python_projectTSC Tech: Python, TensorFlow
- **Blood Donation Web app (Web Development, Database):** (Course project). Web application to help the people who needed blood and connect with the donor. Tech: HTML, CSS, PHP, JavaScript, Database.
- **Face detection with the OPENCV (Model training, AI):** Self-teaching about AI, model training. Tech: Python, TensorFlow, OpenCV)

Course Projects

- **Database Management :** Made database and did CRUD operation.
- **Management System:** Made an object oriented application using JAVA
- **Computer Network :** Made computer network projects using router, switch and others with Cisco Packet Tracer. Partial project code: https://github.com/CenedyPalma/Course_Project_1
- **Lexical Analysis for C :** For understand all parts of a compiler and the execution of a program. Partial part of the project: https://github.com/CenedyPalma/Course_projects_2
- **Circuit Design :** Design circuit(logic gates, CMOS technology) using DSCH and Microwind
- **Image processing with Matlab:** For to know about image processing works.
- **AI with Python :** Learn python and its libraries. Working voice Assistance with python

Publications

- **Book: Savior-an Intelligent Security System (SISS) (Flutter App Development, AI): Work in Progress.** Operating and modifying AI of voice recognition for certain events and giving some pre-loaded commands for a certain task. A command like “Help me SAVIOR”. The program AI connected, will perform a task by calling the given police station number or registered numbers. Another one is automatic given a zone or area recognition. So, that one will know that he/she is in the wrong place and what can he/she do then. It will be helpful for human safety problems. **Tech:** Flutter, Alan AI, Firebase.

Scholarships and Awards

- Participated as Finalist at Blockchain Olympiad Bangladesh in Professional Category -2022
- Got Merit Based Scholarship at NDUB. 2020 - 2021
- Second Runner's Up at NDUB CSE FEST 2021 Programming Contest - 2021
- Outstanding Performance awards for Traffic Control Volunteer Service - 2018
- Second Runner's Up at Eusclan Science & Technology Club for Science Project Display - 2016
- Champion of a Debate Competition at Martin Luther College - 2016
- First Place at Martin Luther College for Science Fair - 2016
- First Place at Martin Luther College for Best Spoken English Skills and Best Attendance - 2016

Workshops

- **Animator Training Program** Dhaka, Bangladesh
Make a event interactive between speakers and audiences. 2020
- **Writing Research Papers and Thesis in CSE at NDUB** Dhaka, Bangladesh
Ways of research and paper writing. 2019
- **The Personal and Political Implications of the Dialogue of Cultures.** Dhaka, Bangladesh
Differences in cultures interact with the personal and political. 2018
- **Basic Film Making Techniques from Drama And Film Club at NDUB** Dhaka, Bangladesh
Basic photo taking, video taking techniques, surroundings lighting condition. 2018

Volunteer Experience

- **Traffic Control Volunteer Service Held by NDUB** Dhaka, Bangladesh
Teach passerby about traffic rules and regulations. 2018
- **Class Representative (CR) of CSE-7 at Notre Dame University Bangladesh.** Dhaka, Bangladesh
Teachers students communication, arranged classes and ensure that university rules are followed. 2018-2021
- **Provide Service for Computer Club at NDUB** Dhaka, Bangladesh
Done video and photo editing for NDUB Computer Club. 2020
- **Event Organizing for a Non-profit Organization Sant Christina Youth Association** Dhaka, Bangladesh
Organized seminar for 1000 people, organized a youth seminar, and published a yearly magazine. 2017 - 2019
